REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Palmetto State E-cademy (PSE) is a public virtual charter school founded in 2008 to serve students in grades 9-12 throughout the state. School offices are located in Columbia and our student body of 350 students demonstrates a blend of diversity equal to the diversity of the state. Teachers work from their homes in various locations throughout the state and they along with the PSE staff are dedicated to the success of our students. Each student is assigned to a homeroom that consists of students and at least one teacher within the same geographic location. This structure provides the students with local social gatherings, service opportunities, and academic support. Palmetto State E-cademy's curriculum is rigorous and includes AP and dual credit courses. During the past academic year, PSE offered dual credit courses and students earned 142 college credits at Southern Wesleyan University. In addition, our 2012 graduating class earned over \$1,000,000 in awarded scholarships from universities throughout the country. A Freshman Academy was implemented to support new students in the virtual environment. Learning Coaches worked one-on-one with these new students to guide them through the processes of virtual learning and to ensure academic success in their future high school and college years. Subject specific Learning Coaches also worked with students in English and math courses providing an additional level of instruction and tutoring. Finally, a Graduation Coach guided seniors and jumping-juniors through their last high school courses to further assist them in their goals of earning a diploma. Each of these programs provided an additional level of support for students who can frequently feel alone in their virtual educational world. The mission of Palmetto State E-cademy is to provide South Carolina youth an opportunity to realize their full potential in a superior online learning environment. To that end, the staff and Board of Directors have implemented a rigorous curriculum developed within the state to challenge students at the appropriate level. Quality professional development for staff, regular interaction with students and parents, and engaging delivery of instruction through live teaching and coaching have led to the continued success of Palmetto State E-cademy.
